

## **Quality Control Group Lead- Direct Hire Position**

McAlpin Industries is looking for a quality driven individual to be our Quality Control Group Leader. The QC Group Leader will be responsible for managing day to day activities of the Quality Inspection Team. Responsibilities will also include first part inspection, setting up inspection requirements of new products and investigation of failures which includes communicating with appropriate departments to develop/implement corrective actions. Must have 5+ years related experience. Comprehensive knowledge of GD&T, CMM (PC-DMIS preferred) and an intermediate level knowledge of Microsoft Excel. ASQ certification strongly desired.
