About the Program: **The Seven Management and Planning Tools**

Recently, in Japan The **Seven Management and Planning Tools** are sometimes quoted as the 'new seven quality tools.' These tools are not a replacement to the basic seven quality tools. It is recommended that these methods should be learned after the seven basic quality tools have been well mastered. This presentation will discuss The **Seven Management and Planning Tools**, their development and use, and their impact to sustain quality and continuous improvement in management decision making.

About the Speaker: Walt is the Director of PEN Associates, a training and consulting firm in Rochester, N.Y. providing client companies with training and consulting in the area's of Quality, Lean, ISO, and many other topics supporting quality, engineering, and manufacturing.

You do not have to be an ASQ member to attend. All are welcome. Membership forms are available at each meeting. For more information about ASQRS including membership, contact Section Chair Dermot Healy, Healy_Dermot@hotmail.com
