From the East (Syracuse area):

Take Thruway 90 west to exit 45. Take 490 west to downtown; exit Clinton Ave.; go four traffic lights to East Main Street (the campus is located to the right on the corner of East Main St. & Clinton Ave.); cross East Main St. and park in St. Joseph Garage located directly behind the Sibley Bldg.; enter the Sibley complex from the 1st or 3rd floor of the garage; take elevator or escalator to Damon City Campus located on the 4th and 5th floors.

**Sign-in with Security at front desk on fourth floor. Door is secured—
students must arrive by 6 P.M.**

Topics to be covered include:

- ASQ Body of Knowledge for taking the ASQ Certified Software Quality Engineer Examination
- Tips for taking Certification Exams
- General Review of Software Quality topics and recommended references

Who should take this course

This is a refresher course for individuals planning to take the American Society for Quality Certified Software Quality Engineer Examination. While the course content includes all elements of the examination Body of Knowledge, the course is paced for individuals who are familiar with the ethics and the broad scope of software quality engineering.

Instructor

David Killius has been a member of the Rochester Section (0204) of ASQ since 1998. He is an ASQ Certified Software Quality Engineer, an ASQ Certified Manager of Quality/Operational Excellence and a certified Six Sigma Green Belt. He is a Quality Manager for Eastman Kodak Co. and his career in Quality Assurance spans more than 25 years. He has previously taught a CSQE refresher course exclusively for Kodak employees.

Text--An appropriate Study Guide will be supplied to all course registrants and is included in the course fee. Please note: *The course fee does not include the fee for taking the examination.* **Individuals planning to take the examination must apply directly with the American Society for Quality. The upcoming examination dates and application deadlines for the exams are:**
