

ASQ Syracuse Section 0206 Presents:

Tuesday, March 11th

“Syracuse Area Remediation Progress.”

The Onondaga Lake Clean-up Project

Presented by John McAuliffe from Honeywell

This presentation will discuss how Honeywell is addressing more than 100 years of environmental legacy left by the former Allied plants, and how the remediation program can get the former Allied properties into productive and sustainable use.

Mr. McAuliffe is Honeywell's Syracuse Program Director with responsibility for all investigation and remediation activities currently being conducted for the Onondaga Lake superfund and associated sites. He is a lifelong resident of Central New York with more than 20 years experience in environmental remediation and construction. He began his career as an Environmental Engineer with the consulting firm of O'Brien & Gere in Syracuse, NY. Subsequently, he worked at Parsons in Liverpool, NY for 16 years as their VP and NY Operations Manager. He has been with Honeywell for approximately six years. Mr. McAuliffe is a Professional Engineer with a bachelor's degree in Civil Engineering and a master's degree in Environmental Engineering from Clarkson University.

Date: Tuesday, March 11th.

Time: We will begin gathering at 5:30pm. Presentation will begin at 6:00pm. Dinner will be served after the presentation.

Location: Lemoyne Manor, East Syracuse.
